

# Let the . . . YELLOW PAGES . . . help you

The Yellow Pages—your “Where-to-Buy-It” telephone directory—are intended to be of service to you. Here, under convenient headings, where you can find them quickly, are listed most of the business firms and professional men in town.

The Yellow Pages are intended to make it easier for you to use your telephone. But they will, in addition, give you much valuable information about names and addresses. Here are five situations in which you can use them to advantage:

1. When you want the telephone number of a business or professional man. Lists of names are shorter here, easier to scan. Instead of poring over long columns of “Smith” in the white pages, you usually spot “Smith James R.” at a glance under “Physicians.”
2. When you don’t know who sells an article or service you want. Suppose your automobile battery needs overhauling. Look under “Batteries.” You’ll find the names of the shops that do such work.
3. When you’ve forgotten the name of a shop, but remember its location. You know, for instance, that there is a beauty shop near a certain corner.

Look under “Beauty Shops” for one with that address. You’ll find its name and telephone number.

4. When you must locate the nearest dealer or shop quickly. For example, a water pipe is leaking. Turn to “Plumbers.” Run down the list until you find one with an address near you. His name and telephone number will be shown.
5. When you want a certain brand of goods — perhaps one that you’ve seen advertised. Many trade marks are listed here — Goodyear Tires, Kelvinators, Chevrolets, the Insurance Company of North America. Under them, you’ll find a list of dealers.

DECEMBER, 1941

## *Arrange for Telephone Outlets*

WHILE YOUR HOME IS BEING PLANNED

---

Built-in telephone outlets not only help to preserve the beauty of your home, but they also add a lot to your living comfort and convenience. They're easy and inexpensive to include—if installed while your house is under construction.

A simple piece of pipe, or conduit, is merely placed inside the walls. Telephone wires are then run through the conduit to locations you have selected for outlets. And a neat little wall-plate is all you see.

Your telephone company will be glad to discuss built-in telephone conduit with you and make recommendations. Just call the Business Office.

*Architects and builders are invited to call upon us for assistance in planning telephone conduit.*

---

ILLINOIS BELL TELEPHONE CO.

## Your telephone may look the same *... but there's a difference*

• Outwardly, your telephone may seem much the same as it was last year—or the year before. But every year it brings better service into your home, your office or your shop—and offers you greater value for the small amount it costs.

The Illinois Bell Telephone Company never gives up its search for better and more efficient equipment and methods of operation. In this it is aided by the research work of the great Bell Telephone Laboratories. Your voice is carried more clearly. Service interruptions are rarer. And in spite of the higher costs the Company has had to meet, continuous improvement in equipment and methods has kept its price so low and its usefulness so great that telephone service is one of the best bargains in your budget.
